INSTRUCTIONS

1. Use scissors to cut the NCR paper pattern down so it's easier to transfer onto the piece.
2. Place the NCR paper pattern on top of the plate and firmly trace over the lines using a ballpoint pen. You don't need to trace the letters now; we will trace them later.
3. Use a liner brush to apply a thin line of Red Hot to the edge of the tin. If helpful, use the photo as a reference.
4. Paint the tin lid (painting around the water) with three generous coats of Gecko Green.
5. Fill in the water section with three generous coats of Deep Sea.
6. Next, fill the fish in the water section with three coats of Blush.
7. Using the photo as a guide, use a liner brush to apply three generous coats of Sea Mist to the bottom section of the tin.
8. When the top of the plate is dry, use the NCR pattern to trace on the lettering.
9. Use a detail brush to apply the letters on the lid with Red Hot and Saffire. Then, the letters on the bottom with Pumpkin Pie.
10. Finally, dip the end of the detail brush into Saffire and tap a tiny dot on each fish for the eye.

TIPS

- Apply three generous coats of paint in order to get solid colors.
- When using the liner brush, you can thin down the paint slightly to help the lines flow more easily.
